VITOR BATISTA BARBIERI

Software Engineer

PROFILE

I've been working as a professional developer for more than **8 years**. I have **5 years** experience with frontend frameworks and Node.js, with also wide experience on SQL/NoSQL databases and cloud services like AWS/GCP.

My strongest point is versatility: I have deep knowledge of front-end and back-end technologies, being abe to work at any part of a project with ease.

EXPERIENCE

Junior developer at Globalsoft
From 01/06/2015 to 31/05/2016 at Globalsoft, Araçatuba, Brazil
I've started my career at Globalsoft, a company that provides GS Gestor, a complete ERP for local businesses. I've started working on internal tools but then moved to working on curstomer facing applications.

Senior developer at IBL
From 01/06/2016 to current date at IBL, Araçatuba, Brazil
I've started working at IBL long ago as a junior developer. There I was completely responsble for multiple projects, allowing me to learn much since then, now I'm a senior software engineer.
